

## Food and Drug Administration, HHS

## § 884.3

- 884.5960 Genital vibrator for therapeutic use.
- 884.5970 Clitoral engorgement device.
- 884.5980 Surgical mesh for transvaginal pelvic organ prolapse repair.

### Subpart G—Assisted Reproduction Devices

- 884.6100 Assisted reproduction needles.
- 884.6110 Assisted reproduction catheters.
- 884.6120 Assisted reproduction accessories.
- 884.6130 Assisted reproduction microtools.
- 884.6140 Assisted reproduction micropipette fabrication instruments.
- 884.6150 Assisted reproduction micro-manipulators and microinjectors.
- 884.6160 Assisted reproduction labware.
- 884.6165 Intravaginal culture system.
- 884.6170 Assisted reproduction water and water purification systems.
- 884.6180 Reproductive media and supplements.
- 884.6190 Assisted reproductive microscopes and microscope accessories.
- 884.6195 Assisted reproduction embryo image assessment system.
- 884.6200 Assisted reproduction laser system.

AUTHORITY: 21 U.S.C. 351, 360, 360c, 360e, 360j, 360l, 371.

SOURCE: 45 FR 12684, Feb. 26, 1980, unless otherwise noted.

### Subpart A—General Provisions

#### § 884.1 Scope.

(a) This part sets forth the classification of obstetrical and gynecological devices intended for human use that are in commercial distribution.

(b) The identification of a device in a regulation in this part is not a precise description of every device that is, or will be, subject to the regulation. A manufacturer who submits a premarket notification submission for a device under part 807 may not show merely that the device is accurately described by the section title and identification provisions of a regulation in this part, but shall state why the device is substantially equivalent to other devices, as required by § 807.87.

(c) To avoid duplicative listings, an obstetrical and gynecological device that has two or more types of uses (e.g., used both as a diagnostic device and as a therapeutic device) is listed only in one subpart.

(d) References in this part to regulatory sections of the Code of Federal Regulations are to chapter I of title 21, unless otherwise noted.

(e) Guidance documents referenced in this part are available on the Internet at <http://www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/GuidanceDocuments/default.htm>.

[52 FR 17740, May 11, 1987, as amended at 68 FR 44415, Aug. 27, 2003; 78 FR 18233, Mar. 26, 2013]

#### § 884.3 Effective dates of requirement for premarket approval.

A device included in this part that is classified into class III (premarket approval) shall not be commercially distributed after the date shown in the regulation classifying the device unless the manufacturer has an approval under section 515 of the act (unless an exemption has been granted under section 520(g)(2) of the act). An approval under section 515 of the act consists of FDA's issuance of an order approving an application for premarket approval (PMA) for the device or declaring completed a product development protocol (PDP) for the device.

(a) Before FDA requires that a device commercially distributed before the enactment date of the amendments, or a device that has been found substantially equivalent to such a device, has an approval under section 515 of the act FDA must promulgate a regulation under section 515(b) of the act requiring such approval, except as provided in paragraph (b) of this section. Such a regulation under section 515(b) of the act shall not be effective during the grace period ending on the 90th day after its promulgation or on the last day of the 30th full calendar month after the regulation that classifies the device into class III is effective, whichever is later. See section 501(f)(2)(B) of the act. Accordingly, unless an effective date of the requirement for premarket approval is shown in the regulation for a device classified into class III in this part, the device may be commercially distributed without FDA's issuance of an order approving a PMA or declaring completed a PDP for the device. If FDA promulgates a regulation under section 515(b) of the act requiring premarket approval for a device, section 501(f)(1)(A) of the act applies to the device.
